

February '06 Update

Hello from Bratislava,

The administration of the school where David teaches has just approved the new song book, so the printing has begun. The kids at the school also have a band, and yes, it is definitely louder than the traditional music was. The students love it and they are singing very enthusiastically; it's definitely a positive development.

Thank you for your prayers for our work with the young people. Youth and music ministry have always been our favorite aspects of church work. We pray for your teens as well.

Love in Christ,
Carla and David Schick
